

## Announcement

### Oral Health Research and Biostatistics Meeting

Attention oral health researchers with an interest in biostatistical methods and statisticians active in oral health research. A meeting on Statistical and Epidemiological Methods for Oral Health Research will be held at McGill University in Montreal, Canada, 14 and 15 July, 2006. This is a satellite meeting to the International Biometric Society Congress.

Six expert speakers from the United States, Australia and Europe will discuss topics on statistical and epidemiological issues relevant to oral health research:

Dr Melissa Begg (Columbia, USA): Analysis of clustered data

Drs Niels Keiding (Compenhagen, Denmark) & Thomas Gerds (Freiburg, Germany): Survival analysis

Dr Gary Slade (Adelaide, Australia): Age and cohort effects

Dr Helmut Küchenoff (Munich, Germany): Measurement error

Dr Amy Anderson (North Carolina, USA): Statistical genetics

Attendees are invited to present posters of their own work.

Details of this excellent meeting can be found at the website:
