

Erratum

In the article “Mechanical non-surgical treatment of peri-implantitis: a double-blind randomized longitudinal clinical study. I: clinical results”, which was published in Volume 36 Issue 7 of the *Journal of Clinical Periodontology*, incorrect manufacturer information was included in the second sentence in the section “Treatment procedures”:

Implants in group 2 were treated with mechanical debridement using an ultrasonic device (the Vector system[®], Dürr

Dental AG, Bietigheim-Bissingen, Germany) with a specially designed tip for the treatment of infections around implants (LM Instruments Oy, Parainen, Finland).

The sentence should read:

Implants in group 2 were treated with mechanical debridement using an ultrasonic device with a specially designed tip for the treatment of infections around implants (LM Instruments OY, Parainen, Finland).

We apologize for this error.
