28/01/10
Dated: 01.02.2010

IIIrd yr. B.D.S (Supple-2006 Batch) **2nd Internal Assessment Examination-Theory** **Subject-Oral & Maxillofacial Pathology**

Time: 3 hours

Max Marks - (50)

- Note: 1. Attempt all the questions
2. Draw neat & well labeled diagrams wherever necessary
3. Use separate answer sheet for part A & Part B

Part A

- Q1. Classify the cysts of jaws. Discuss in detail etiopathogenesis, clinical, radiographic & histopathological features of dentigerous cyst. (8)
- Q2. Enumerate viral lesions of the oral cavity. Discuss in detail clinical and histopathologic features of Herpes Simplex infection. (8)
- Q3. Write short notes on – (3x3=9)
a) Pulp Polyp
b) Aphthous ulcers
c) Mucocele

Part B

- Q1. Classify Odontogenic tumors of jaws. Discuss in detail etiopathogenesis, clinical, radiographic & histopathologic features of Ameloblastoma. (10)
- Q2. Write short notes on – (3x3=9)
a) Odontoma
b) Enamel Caries
c) Garre's Osteomyelitis
- Q4. Write in brief note on histopathology of *4*
a) Pleomorphic Adenoma (2x3=6)
b) Radicular Cyst
c) Adenomatoid Odontogenic Tumor

4

3rd YR. B.D.S (2007 odd Batch)
1st INTERNAL ASSESSMENT EXAMINATION-THEORY
Subject: - Oral & Maxillofacial Pathology

Date: 20/11/10
Time: 3 hours
Marks: 50

Note:

1. Attempt all the questions.
2. Draw neat and well labeled diagrams wherever necessary.
3. Use separate answer sheets for part A & part B

PART -A

Q1. Classify cysts of the Jaws. Discuss in detail etiopathogenesis, clinical, radiographic & histopathological features of Dentigerous Cyst. (8)

Q2. Write Short Notes on :- (5x2=10)

- a) Pulp Polyp ✓
- b) Pernicious Anemia.
- c) Osteomyelitis of jaws ✓
- d) Herpes Zoster Infection ✓
- e) Agranulocytosis

PART-B

Q1. Classify Odontogenic Tumors. Describe in Detail etiopathogenesis, clinical types radiological & Histopathological features of Ameloblastoma. (8)

Q2. Describe in Detail (5)

- a) Pindborg's Tumor
- b) Actinomycosis ✗

Q3. Write Short Notes on. (3X3=9)

- a) Pathogenesis of Radicular cyst ✓
- b) Aphthous Ulcer ✗
- c) Herpes Simplex Infection ✗

Q4. Describe Histopathology of –

- a) AOT
- b) Odontoma ✓
- c) Odontogenic Keratocyst ✓

3rd YR. B.D.S (2007 Regular Batch)
2nd INTERNAL ASSESSMENT EXAMINATION-THEORY
Subject: - Oral & Maxillofacial Pathology

Date: 20/11/10
Time: 3 hours
Marks: 50

Note:

1. Attempt all the questions.
2. Draw neat and well labeled diagrams wherever necessary.
3. Use separate answer sheets for part A & part B

PART -A

- Q1. Classify cysts of the Jaws. Discuss in detail etiopathogenesis, clinical, radiographic & histopathological features of Dentigerous Cyst. (8)
- Q2. Classify & discuss in detail Oral candidiasis. (7)
- Q3. Write Short Notes on :- (5x2=10)
- a) Pulp Polyp
 - b) Pernicious Anemia.
 - c) Osteomyelitis of jaws
 - d) Dentinogenesis Imperfecta
 - e) Agranulocytosis

PART-B

- Q1. Classify Odontogenic Tumors. Describe in Detail etiopathogenesis, clinical types radiological & Histopathological features of Ameloblastoma. (8)
- Q2. Discuss in detail etiology, clinical & histopathological features of Oral Squamous cell Carcinoma. (5)
- Q3. Write Short Notes on:- (3X2=6)
- a) Pathogenesis of Radicular cyst
 - b) Aphthous Ulcer
 - c) Herpes Simplex Infection
- Q4. Describe Histopathology of – (3X2=6)
- a) AOT
 - b) Odontoma
 - c) Odontogenic Keratocyst

FINAL INTERNAL ASSESSMENT EXAMINATION – THEORY

IIIrd yr. B.D.S (Odd Batch-2007)

Time: 3 hrs

Subject – ORAL PATHOLOGY

MM: 50

- Note:
1. Attempt all the questions
 2. Draw neat & well labelled diagrams wherever necessary
 3. Use separate answer sheet for Part A & Part B

PART – A

- Q.1 Define Cyst. Classify Odontogenic & Non-Odontogenic cysts. Discuss etiopathogenesis, clinical, radiological & histopathological features of Odontogenic Keratocyst. (8)
- Q.2 Classify fibro osseous lesions of Jaws. Explain the etiopathogenesis, clinical radiological & histopathological features of fibrous dysplasia. (8)
- Q.3 Write short notes on:- (3x3=9)
- a) Trigeminal Neuralgia
 - b) ANUG
 - c) Lichen Planus

PART – B

- Q.1 Define Pre Cancerous Lesions & Conditions. Discuss in detail etiopathogenesis, clinical & histopathology of oral sub mucous fibrosis. (8)
- Q.2 Discuss in detail the developmental disturbances affecting structure of teeth. (8)
- Q.3 Write short notes on :- (3x3=9)
- a) Oral Manifestation of AIDS
 - b) Pernicious Anemia
 - c) Geographic Tongue

FIRST INTERNAL ASSESSMENT EXAMINATION – THEORY IIIrd yr. B.D.S (Regular Batch)

Time: 3 hrs
MM: 50

Subject – Oral & Maxillofacial Pathology

- Note:
1. Attempt all the questions
 2. Draw neat & well labelled diagrams wherever necessary
 3. Use separate answer sheet for Part A & Part B

PART – A

- Q.1 Classify the development disturbances affecting the structure of teeth. Discuss in detail disturbances affecting structure of dentin. (8)
- Q.2 Write detailed notes on - (2X4=8)
- a) Amelogenesis Imperfecta
 - b) Supernumerary teeth
- Q.3 Write notes on :- (3x3=9)
- a) Geographic Tongue / *Benign migratory glossitis*
 - b) Nasopalatine duct cyst
 - c) Xerostomia

PART – B

- Q.1 Define Precancerous lesions & precancerous conditions. Define leukoplakia, discuss in detail etiopathogenesis, Clinical types & features, Histopathological criteria for Leukoplakia. (8)
- Q.2 Classify benign & malignant tumors of oral cavity. Describe in detail pathogenesis, clinical features radiographic features, histopathology & differential diagnose of central giant cell granuloma. (8)
- Q.3 Write notes on :- (3x3=9)
- a) Burkitt's lymphoma.
 - b) Osteosarcoma.
 - c) Haemangioma.
