

I.T.S Dental College, Hospital & Research Centre

Knowledge Park III, Greater Noida

Department of Periodontics

First Internal Assessment

BDS 4th Year (Regular Batch)

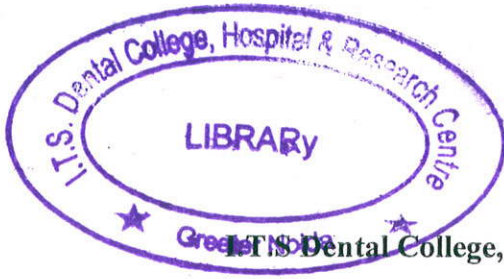

- All questions are compulsory Max marks : 70
- Draw neat diagrams wherever necessary

Part- A

1. Define gingiva. Discuss in detail macroscopic features of gingiva. [10]
2. Define and classify Dental Plaque. Discuss in detail various stages of plaque formation. [10]
3. Short Notes : [3x5 =15]
 - a) Acellular Vs Cellular Cementum
 - b) Fenestration versus Dehiscence
 - c) Age changes in periodontium

Part -B

1. Enumerate various defence mechanisms of gingiva. Discuss in detail role of GCF in gingival defence. [10]
2. Define and classify periodontal pocket. Discuss in detail difference between suprabony and infrabony pocket.[10]
3. Short Notes: [3x5 =15]
 - a) ANUG
 - b) Functions of Periodontal ligament
 - c) Drug induced gingival enlargements

Department of Periodontics

Second Internal Assessment

BDS 4th Year (2015 Regular Batch)

Date: 18.07.19

- All questions are compulsory
- Draw neat diagrams wherever necessary

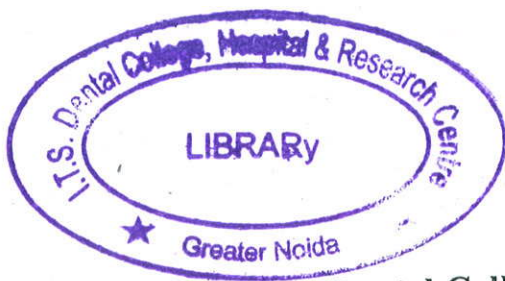

Max marks : 70

Part A

1. Define and classify Aggressive Periodontitis. Discuss its clinical and radiographic features in detail. [10]
2. Define and classify Trauma from Occlusion. Discuss in detail various stages of tissue response to injury in Trauma from occlusion. [10]
3. Short notes [5×3]
 - i. Supra bony and Infra bony Pocket
 - ii. Smoking and periodontal disease
 - iii. Gingivectomy

Part B

1. Define Periodontal Flap. Describe Modified Widman Flap in detail. [10]
2. Define and classify Furcation involvement. Discuss in detail management of Grade II furcation involvement. [10]
3. Short notes [5×3]
 - i. Chlorhexidine
 - ii. Periodontal Dressing
 - iii. Necrotising ulcerative Periodontitis.

Department of Periodontics

FIRST INTERNAL ASSESSMENT (ODD BATCH 2015)

Date: 27/9/19

Max marks : 70

- All questions are compulsory
- Draw neat diagrams wherever necessary

Part A

1. Enumerate various defence mechanisms of gingival. Discuss role of GCF in gingival defence in detail. [10]
2. Define Gingiva. Discuss in detail macroscopic features of gingiva. [10]
3. Write short notes on
 - i) Fenestrations versus dehiscence
 - ii) Functions of periodontal ligament
 - iii) Acellular versus cellular cementum [5×3]

Part B

4. Define and classify gingival enlargements. Discuss in detail about conditioned gingival enlargements. [10]
5. Define and classify periodontal pocket. Discuss in detail differences between suprabony and infrabony pocket. [10]
6. Write short notes on
 - i) Dentinal hypersensitivity
 - ii) Necrotising ulcerative gingivitis
 - iii) Theories of calculus formation [5×3]
